Your site

Delivered by our ADR tank trucks to the EU, Switzerland or the UK

ABOUT US

A restored Ukrainian distillery with a full production cycle

Ethyl Prom Group operates the Bdzhilna distillery in the Vinnytsia region of Ukraine. We restored the plant and run the full production cycle: grain and molasses preparation, fermentation, distillation and rectification. The plant is licensed to produce and sell ethyl alcohol.

Distilling on site since
1894

Location
**Bdzhilna, Vinnytsia
region**

Feedstock
Grain and molasses

Company code (EDRPOU)
44963663

WHY BUYERS WORK WITH US

Buy from the plant, not from a trader

Direct from the producer

One contract, one point of contact, no trader's margin.

Specs from real analyses

Offers quote actual laboratory results for our batches, not the limits of the standard.

Our own ADR fleet

From our tanks to the border or to your gate.

Made to your formula

Denaturants, additives, blends — produced to your specification.

PRODUCT	APPLICATIONS	HS CODE	SHIPPED IN
Rectified ethyl alcohol 96% Wheat Tear · Lux · Extra · Highest Purity (DSTU 4221:2003)	Spirits and vodka, pharmaceuticals, cosmetics, food industry	2207 10 00 90	Tank trucks; drums and IBCs on request
Denatured ethyl alcohol Grades A and B; other formulas to order	Screen wash, household and car chemicals, paints and coatings	2207 20 00 90	Tank trucks, drums, IBCs
Fusel oil concentrate (KES) By-product of rectification	Chemical feedstock, isoamyl alcohol recovery, solvents	3824 99 92 90	Drums, IBCs
Multipurpose thinner (solvent) Chemical shop product	Paints, coatings, industrial cleaning	on request	Drums, IBCs

Specifications are based on actual laboratory analyses of our production. Full specification and monthly volumes are confirmed in the offer.

CUSTOM PRODUCTION

Any alcohol-based product, made to your specification

Send us a formula or a target specification and we will produce it. Our chemical shop works with rectified and denatured alcohol and fusel oil concentrate, and we can add practically any denaturant or additive you specify — for chemical, cosmetic, perfume or technical use.

Denatured alcohol to your country's formula, with the denaturants you specify

Alcohol bases for perfumery and cosmetics

Screen wash, car-care and household chemical concentrates

Thinners and industrial solvents

Fire-lighting fluids

Technical fluids and blends to your recipe
